ADOBE FOR EDUCATION

To Parents/Guardians,

In partnership with the New Mexico Department of Education and Adobe, Inc., Estancia Municipal Schools offer students' access to Adobe Creative Cloud; which includes over 26 of Adobe's products and software. Adobe tools empower students to communicate and think creatively so they can graduate with the digital skills needed for future career opportunities. Estancia Municipal Schools **DOES** disclose Student's First and Last name as well as Student's School-Issued Email Address to Adobe, Inc.; no other student demographic information is shared.

I give my permission for Estancia Municipal Schools to create and maintain an Adobe Creative Cloud account for my child/student. By creating an account and your student's initial use of any Adobe Software, you and your student have read and acknowledge Adobe's General Terms of Use which can be found at adobe.com/legal/terms.html.

Thank you,

Elementary Principal
